

Ayurvedic Treatment on Blood Pressure, etc. (Including Daily Regimen for Heart Patients)

Preface

In simple words, the heart is a live pump which supplies blood to the entire body and is also one that pulls the blood back from it. It is a pump that never rests. Just like respiration, if the beating of the heart stops for even a minute, the body will not remain alive.

This Text analyses from the perspective of Ayurveda various diseases of the heart such as blood pressure, formation of blocks in the blood vessels of the heart, infection of the heart, heart failure, etc.

This Text also analyses other aspects such as what should be the diet for heart patients, what should be their daily routine, how to prevent diseases of the heart.

This is the second Volume in the series on 'Diseases of the Heart'. The first Volume provides detailed classification of heart diseases according to Ayurveda and additional relevant information. For comprehensive knowledge on the subject, it would be ideal to read both the Volumes. The study of these Volumes will be useful for the heart patients, Vaidyas (Ayurveda practitioners) and doctors; besides, they will also get guidance on how to maintain a heart that is healthy and efficient.

We pray from the bottom of our heart unto the Almighty, who controls the entire world - 'May the heart patients fully recover from their disease and may all enjoy the Bliss of leading a healthy life!' – **Authors**

Contents

Chapter 1: Hypertension	11
1. What is hypertension?	11
2. Reasons why blood vessels get affected	12
3. Diseases of the blood vessels	13
4. Manifestations of Hypertension	14
5. Pathogenesis	14
6. Treatment of hypertension	14
7. Recipes	19
8. Diet in hypertension	21
Chapter 2. Atherosclerosis	23
1. Introduction	23
2. Medicines	23

3. Diet in atherosclerosis	24
Chapter 3: Inflammatory Diseases of the Heart - 1	25
1.Types of inflammatory diseases of the heart	25
2. Pathogenesis	26
3. Prognosis	26
4.Treatment 5. Diet	27
Chapter 4: Heart Failure	33
1. Definition and pathogenesis	33
2.Treatment 3. Diet	35
Chapter 5: Endocardial Fibroelastosis	42
Chapter 6: Metabolic Disorders affecting the Heart	43
1. Introduction	43
2. Madhumeha i.e., diabetes 3. Obesity	44
Chapter 7: Rheumatic Heart Disease	45
1. Introduction 2. Amavat	45
3. Sandhika sannipata jwara (Rheumatic fever)	68
4. Other recipes 5. Diet in Amavat	69
Chapter 8: Ventricular or aortic aneurysm	75
1. Types of gulma 2. Treatments	75
Chapter 9: Cardiac tumours	78
Chapter 10: Prognosis	79
1. General guidelines	79
Chapter 11: Panchakarma	82
1. Types of treatment	82
Chapter 12: Medicines acting on Heart	85
Chapter 13: Diet in Heart Disease	87
1. Diet 2. Diet related to tridoshas	87
Chapter 14: Daily Regimen for a Heart Patient	94
1. Daily regimen	94
