

Ayurvedic treatment on blood pressure, etc.

(Including daily regimen for heart patients)

Preface

In simple words, the heart is a live pump which supplies blood to the entire body and is also one that pulls the blood back from it. It is a pump that never rests. Just like respiration, if the beating of the heart stops for even a minute, the body will not remain alive. This Text analyses from the perspective of Ayurveda various diseases of the heart such as blood pressure, formation of blocks in the blood vessels of the heart, infection of the heart, heart failure, etc.

This Text also analyses other aspects such as what should be the diet for heart patients, what should be their daily routine, how to prevent diseases of the heart.

This is the second Volume in the series on 'Diseases of the Heart'. The first Volume provides detailed classification of heart diseases according to Ayurveda and additional relevant information. For comprehensive knowledge on the subject, it would be ideal to read both the Volumes. The study of these Volumes will be useful for the heart patients, Vaidyas (Ayurveda practitioners) and doctors; besides, they will also get guidance on how to maintain a heart that is healthy and efficient.

We pray from the bottom of our heart unto the Almighty, who controls the entire world - 'May the heart patients fully recover from their disease and may all enjoy the Bliss of leading a healthy life!' – **Authors**

Index

Chapter 1: Hypertension	12
1. What is hypertension?	12
2. Reasons why blood vessels get affected	13
3. Diseases of the blood vessels	14
4. Manifestations of Hypertension	15
5. Pathogenesis	15
6. Treatment of hypertension	15
7. Recipes	20
8. Diet in hypertension	22
Chapter 2. Atherosclerosis	24
1. Introduction	24
2. Medicines	24

3. Diet in atherosclerosis	25
Chapter 3: Inflammatory Diseases of the Heart - 1	26
1.Types of inflammatory diseases of the heart	26
2. Pathogenesis	28
3. Prognosis	28
4.Treatment	28
5. Diet	28
Chapter 4: Heart Failure	34
1. Definition and pathogenesis	34
2.Treatment	36
3. Diet	36
Chapter 5: Endocardial Fibroelastosis	43
Chapter 6: Metabolic Disorders affecting the Heart 44	44
1. Introduction	44
2. Madhumeha i.e., diabetes	45
3. Obesity	45
Chapter 7: Rheumatic Heart Disease	46
1. Introduction	46
2. Amavat	46
3. Sandhika sannipata jwara (Rheumatic fever)	69
4. Other recipes	70
5. Diet in Amavat	70
Chapter 8: Ventricular or aortic aneurysm	76
1. Types of gulma	76
1. Treatments	76
Chapter 9: Cardiac tumours	79
Chapter 10: Prognosis	80
1. General guidelines	80
Chapter 11: Panchakarma	83
1. Types of treatment	83

Chapter 12: Medicines acting on Heart	86
Chapter 13: Diet in Heart Disease	88
1. Diet	88
2. Diet related to tridoshas	88
Chapter 14: Daily Regimen for a Heart Patient	95
1. Daily regimen	95
